Samsung SPEX SCH-R210 Speaker Replacement

This guide will show you how to replace the speaker if it is not working properly.

Written By: Susan

INTRODUCTION

This is an easy DIY guide to replace the speaker. It involves removing the back cover, battery, and plastic cover over the motherboard. You will only need a screwdriver for this guide.

TOOLS:

- Phillips #00 Screwdriver (1)

Step 1 — Phone back cover

- Remove back cover by pressing down with your thumb on top of the back cover.

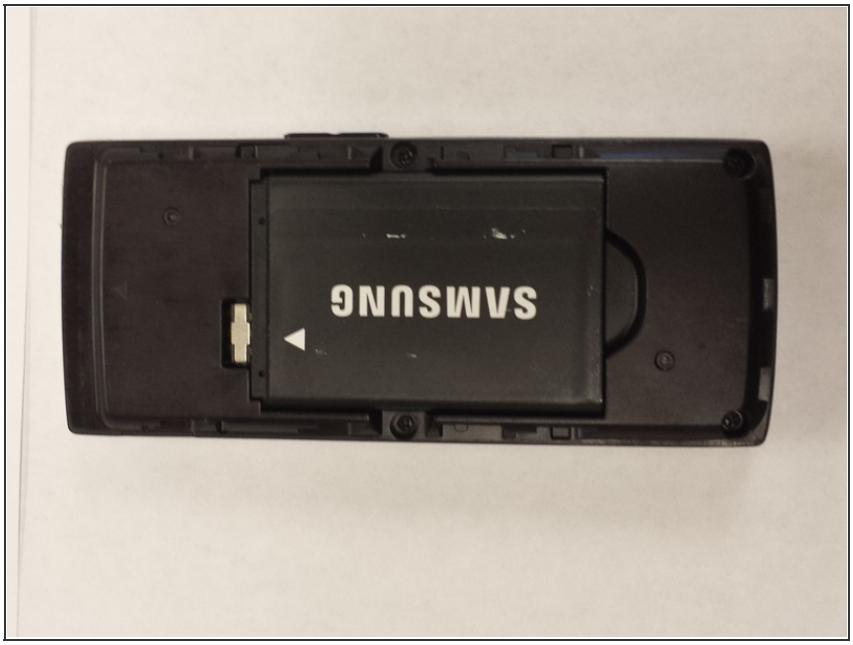
Step 2

- You will hear a popping noise as the cover releases from the phone. Continue to slide the cover down.

Step 3

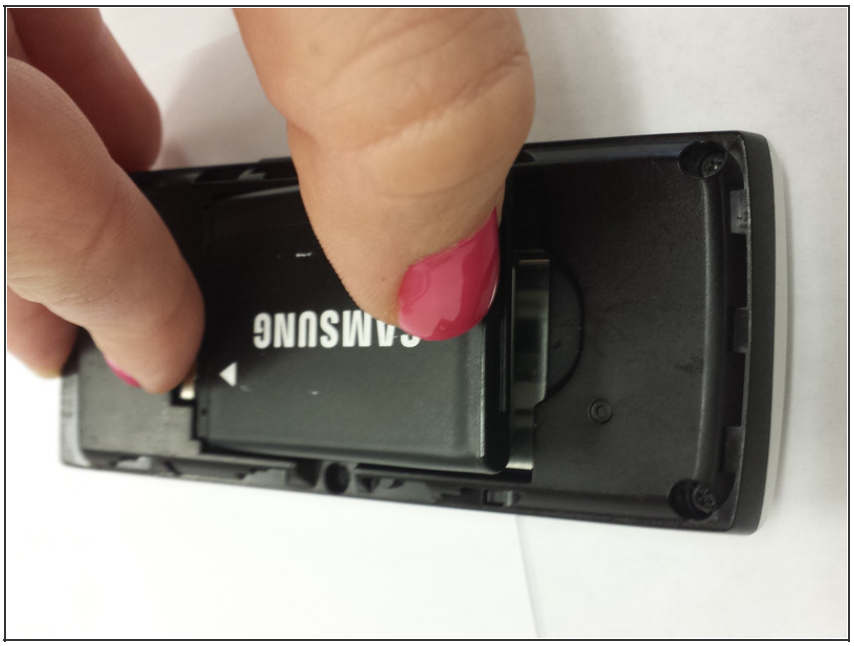
- Lift the cover off the phone and put aside

Step 4 — Battery



- Once the back cover is taken off the phone, locate the battery in the phone.

Step 5

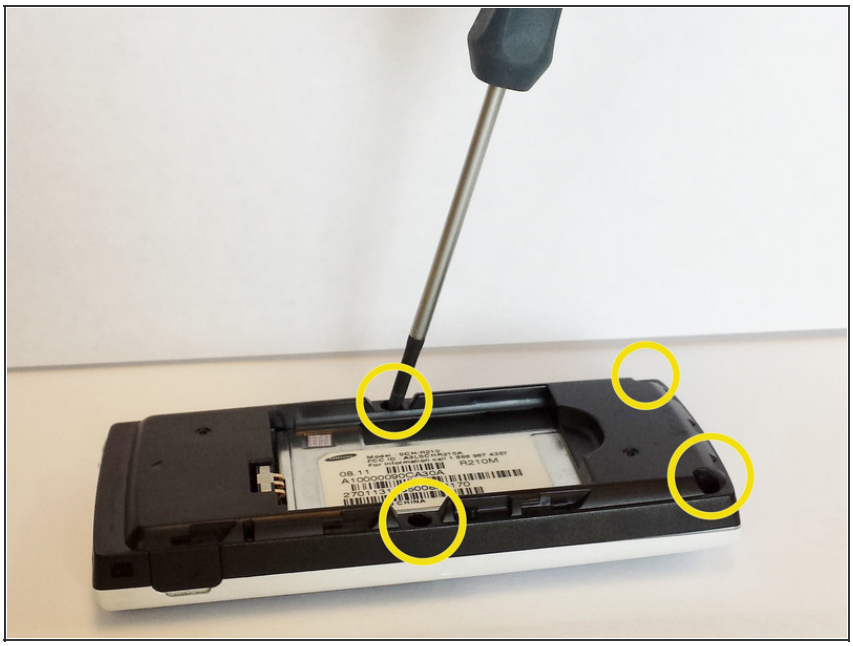


- Place thumb at the bottom of the battery and lift up.

Step 6

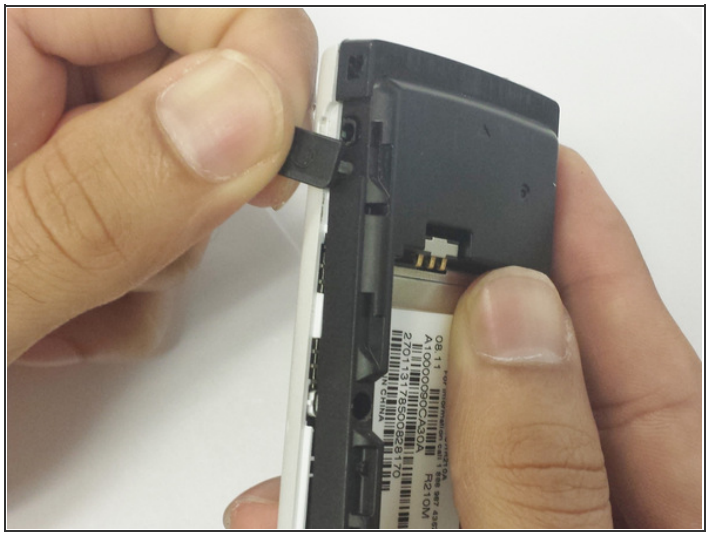
- Pull the battery out.

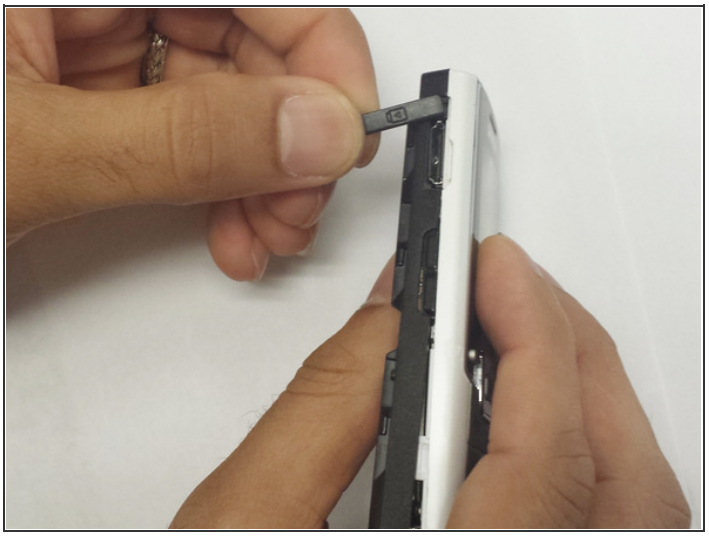
Step 7 — Speaker



- Once the battery is removed, use the Phillips #00 screwdriver to unscrew the 4 3/16" screws holding the black plastic cover in place.

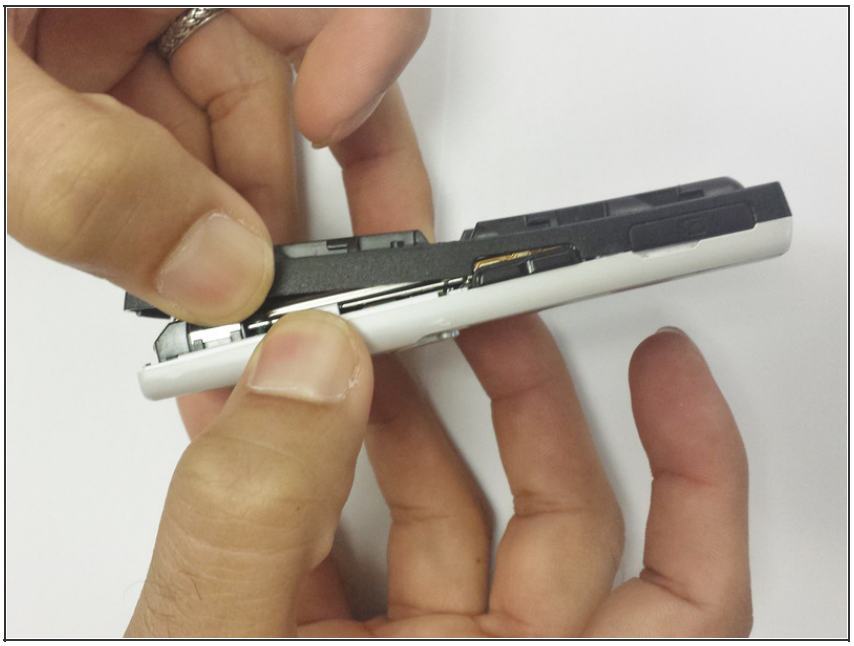
Step 8





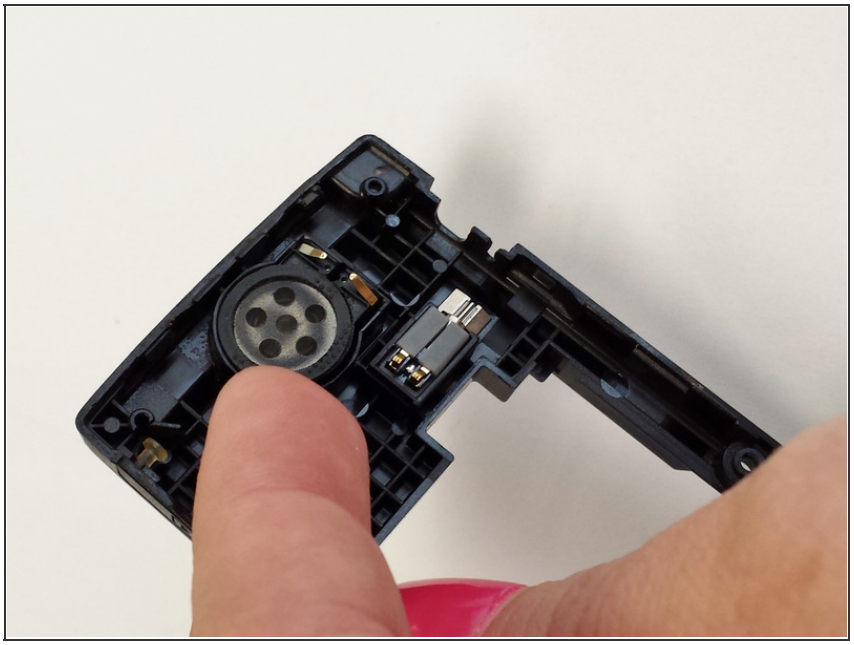
- Remove the headphone cover from the left side and the volume cover from the right side of the black plastic cover.

Step 9



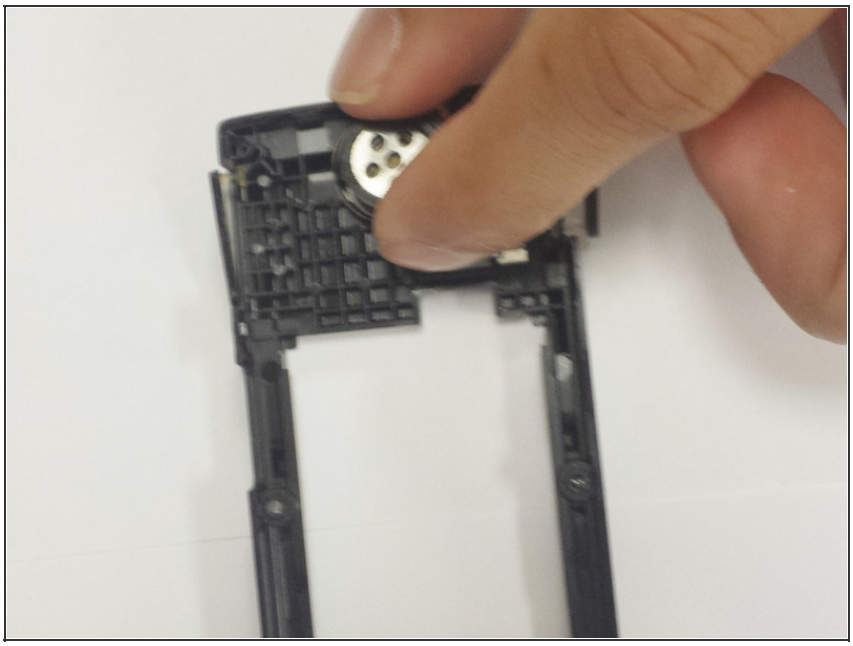
- Remove the black plastic cover from the back of the phone. This may take a little effort.

Step 10



- The speaker is located on the opposite side of the black plastic cover. Using your fingernail, pry the speaker out of the cover.

Step 11



- Replace with a new speaker.

To reassemble your device, follow these instructions in reverse order.
